EXPERIENCE SEAMLESS IN HEALTHCARE

Modernize your practice to deliver a pain-free experience

Improve patient care by simplifying intake, verification, and payment processes to create an environment where the patient is always the focus. Aila's Interactive Kiosk™ lets patients easily check themselves in with their ID, insurance card, or on their smartphone in seconds.

Delivered through an ADA compliant user-friendly design and your own iOS app, the Interactive Kiosk ensures a smooth flow of patients and makes patient check-in easier than ever.

RELIABLE PATIENT CHECK-IN AS EASY AS 1-2-3. IT'S REALLY THAT SIMPLE.

Quality care starts at check-in. Provide patients with a faster and more intuitive way to begin their visit while improving your data collection rates and streamlining verification. With the scanning capabilities of Aila's Interactive Kiosk with TrueScan, and in partnership with Acuant, patients

can scan any document such as a driver's license or a passports for a secure ID verification. A touchscreen interface guides the user through the simple check-in process, and an optional ID tray attachment makes it easy to capture perfect scans and images within seconds, every time.

1 SCAN & CAPTURE

2 PROCESS & POPULATE

Accurate information is automatically populated

3 DIGITIZED & VERIFIED

50+ forensic tests, including biometric facial recognition, performed in less than **5 seconds**

A SIMPLE CHECK-IN FOR PATIENTS

Deliver a higher quality consumer experience and increase patient satisfaction by allowing patients to easily check themselves in with their ID, insurance card, or on their smartphone, quickly and efficiently.

A SEAMLESS REGISTRATION PROCESS FOR PRACTICES

Efficiency doesn't have to come at the expense of quality. Streamline your practice with fast & accurate data capture and multifactor authentication and eliminate costly manual data entry errors caused by paper forms.

A HEALTHCARE SOLUTION BUILT WITH TOMORROW IN MIND

Rapid change in healthcare technology is coming. With the right platform, you'll be ready for it. Our healthcare check-in solutions are compatible with top POS systems, printers and iOS applications, providing one platform for endless opportunities.
